The book has so much material that a person will not only learn all the OLQs, but will also be able to find out the OLQs within him. The best thing about this is the TAT example which not only are solved, but have a detailed description of the OLQs shown by the hero. This will help greatly into shaping ones psychology to the needed one. Greatly recommended

★★★★★ **the book is amazing**

The book has so much material that a person will not only learn all the OLQs, but will also be able to find out the OLQs within him. The best thing about this is the TAT example which not only are solved, but have a detailed description of the OLQs shown by the hero. This will help greatly into shaping ones psychology to the needed one. Greatly recommended

★★★★★ **the book is amazing**
